

7 TIPS THAT COULD SAVE YOUR SIGHT!

APPROXIMATELY
2,000
EYE INJURIES OCCUR
EACH DAY IN THE
U.S., MANY REQUIRING
TIME OFF AND SOME
EVEN RESULTING IN
PERMANENT VISION LOSS.

- 1 Always wear safety glasses when required!
- 2 Wear safety glasses with side shields whenever you work with metal, wood, drywall, cement and other materials that create dust.
- 3 Be aware that activities such as hammering, pushing and pulling, prying, and power tools can create flying objects.
- 4 Make sure your prescription safety glasses fit properly.
- 5 Clean your safety glasses regularly to ensure they are in good condition.
- 6 Take a moment to brush, shave, or vacuum dust and debris off your body before removing protective eyewear.
- 7 Replace your safety lenses if they get excessively scratched, dented or are involved in an impact accident.
